Driving electric cars has several advantages and disadvantages. Electric cars cause fewer emissions. They also provide personal space for drivers to relax when they feel exhausted on the road. Some think electric cars do not have any disadvantages. But the truth is different. Firstly, the cost is not as reasonable as traditional cars. Drivers need to spend a lot of money on electricity, so the car can work. Secondly, on occasions like field trips, drivers cannot travel far distances because batteries of electric cars only last for 100-160 kilometers. There are also no or few electricity stations for drivers when car batteries die. This is not as convenient as traditional cars. Traditional car drivers can easily stop and buy gas from gas stations. Thirdly, it can be time-consuming to generate electricity for cars each time drivers go out. It takes between 6 and 8 hours for the car to finish.

Hi Mom,

I wanted to send this postcard to you and let you know I am doing well and living in London. I found a good job working in a bakery. The bakery is in a beautiful part of the city across the street from the Waldorf. It is an old hotel, and many famous guests stay there. I got an apartment near the park and have been getting lots of exercise by going on slow runs

around the city. I have also been spending my free time watching the local Chelsea football club at the stadium. It's so exciting to watch the games in person and hear the crowd go crazy when they score. Being here has been a great experience. You would be happy to know that I have been improving my English. Being able to practice every day has helped me a lot.

Please write back and let me know how things are at home.

Your Son,

Anthony
